

Helping you move through the messy middle.

Behavior Rewired™ Train-the-Trainer

Level 2, Advanced

July, 2026 | Philadelphia, PA

Support for stuck staff.
Fewer disruptions across classrooms.
A clear path to lasting change.

It's Time to Level Up.

Most schools don't struggle with getting started. They struggle with what comes next.

Great training, solid ideas, and people leave feeling hopeful.

But then real life picks back up.

And the leader who brought the work in is left wondering how to keep it moving without turning it into "one more thing."

Level 2 is designed for that part.

Staff have responded so well to the BRAVE framework and the training materials...my administrators are asking for more!

— Liesl Arnell, Level 1 BRAVE Trainer (UT)

We're rolling out BRAVE to our regional team, and from the first session **the engagement was incredible**. Our instructional coach pulled us aside afterward just raving about it. The buzz was that **teachers feel hopeful**, like this is really going to help.

- Megan Donahue, Teacher of the Deaf, Capital Region BOCES (NY)

Turn Early Wins into Lasting Change

Behavior Rewired strengthens the systems behind your staff so the momentum keeps growing long after the training ends.

Stronger Staff Buy-In

Practical tools for resistance, skepticism, and implementation fatigue.

More Consistent Tier 1 Practice

Reduce system strain with user-friendly strategies and shared language.

Greater Internal Capacity

Grow brain builders throughout your organization.

A Clear Path Forward

Includes a full year of coaching + implementation tools and support.
